

# HIGH-PERFORMANCE CONVEYORS THAT LAST

**ENGINEERED TO WITHSTAND THE TOUGHEST CONDITIONS AND  
DELIVER UNMATCHED RELIABILITY**

## WHY SETTLE FOR LESS WHEN YOU CAN HAVE THE BEST?

Transcon's conveyors aren't just built; they're crafted with precision and expertise accumulated over decades. Here's why our conveyors outperform the competition:

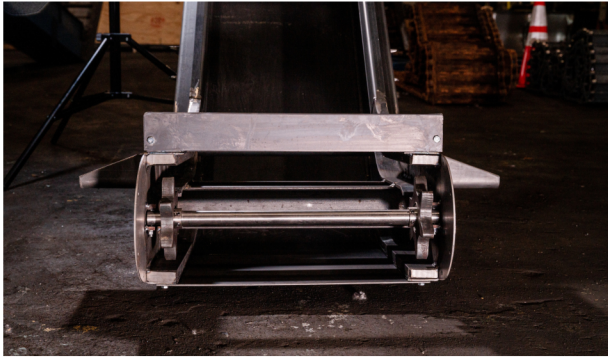

- **Heavy-Duty Construction:** Our 2-1/2" pitch conveyors feature robust side panels and structural frame spreaders, providing unparalleled durability.
- **Exclusive Welded Hinge Design:** Achieve longer conveyor lines and handle heavier working loads without a hitch.
- **Customizable Solutions:** From abrasion-resistant track liners to high-temperature applications, we tailor each conveyor to your needs, ensuring optimal performance.

## RELIABILITY AND EXPERTISE YOU CAN COUNT ON

We don't just build conveyors; *we build trust*. With our ISO 9001:2015 certification, you can trust the quality of our trouble-free conveyors that maximize productivity and minimize downtime.

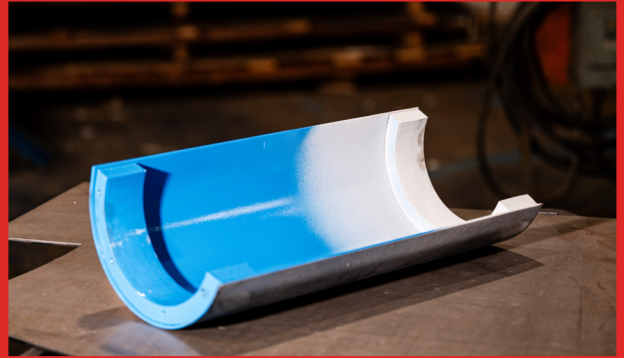

- **Decades of Experience:** We have the practical knowledge and skills to create and produce exactly what your specific application needs.
- **Proven Track Record:** Our conveyors are trusted worldwide for their durability and performance.
- **Tailored Solutions:** We customize conveyors to fit your needs for the best possible solution.

**Don't compromise on quality.** Experience the Transcon difference at [www.transconconveyor.com](http://www.transconconveyor.com)

### **DURABLE AND RUGGED FRAMING**

Witness the power of durability! Our  $\frac{3}{4}$ " bars crush the competition's flimsy sheet metal. Extensive field research reveals that this crucial upgrade eliminates common failure points, giving your conveyor an extended, trouble-free life. Say goodbye to weak links!

### **LIGHT WEIGHT, BUT HEAVY DUTY**

Behold the heavy-duty rolled bar and back plate. Even our light-weight conveyors are built like tanks. This is the rugged reliability that sets Transcon apart, ensuring your operations run smoothly, no matter how demanding the conditions.

### **TRANSCON'S ONE-OF-A-KIND FRAME DESIGN**

Discover the unmatched strength of Transcon's frame design. Our 2  $\frac{1}{2}$ " pitch conveyors deliver unparalleled frame longevity with superior upper and lower tracks and solid spreaders. Imagine the ease of replacing a belt without the headache and expense of an entire conveyor overhaul!

**Choose Transcon for conveyors that are built to last. Our frames, fortified with  $\frac{3}{4}$ " bars and reinforced designs, outshine the competition. Enjoy the simplicity and cost savings of easy belt replacements, backed by our commitment to durability and excellence.**
